Agreement to Pay

How you will pay

I am requesting a fee waiver for my request and have reviewed the FOIA reference guide. If my fee waiver is denied, I am willing to pay additional fees and will enter that maximum amount in the box below.

Allow up to \$

Proof Of Affiliation for Fee Waiver

**Waiver
Explanation**

We represent victims of the October 1, 2017 shooting who intend to file a lawsuit against the manufacturers of the guns Paddock used to commit this heinous act. To do so, it would be helpful to identify which of the guns Paddock used in the shooting fired the bullet(s) that killed Carolyn Lee Parsons. The suit is intended not only to remedy the harm suffered by these victims, but also to hold the manufacturers accountable for any legal violations on their part that led to the shooting and may be continuing to endanger the public to more of the same. Accordingly, because the requested information is in the public interest and will contribute significantly to the public???'s understanding of the October 1, 2017 shooting, we request a waiver of all fees. If the waiver is denied, and there are any fees for searching or copying these records, please inform us if the cost will exceed \$1,000.00.

**Documentation
Files**

Non-Individual FOIA Request

**Request
Information**

On August 3, 2018, the Las Vegas Metropolitan Police Department (LVMPD) released its Final Criminal Investigative Report relating to the October 1, 2017 mass shooting in Las Vegas, Nevada. The report states at page 9 that FBI ERT handled the collection of all evidence related to the Mandalay Bay and the Las Vegas Village venue, and the report further states at page 74 that FBI personnel took the lead in evidence documentation and collection. Pages 106 and 107 of the LVMPD's report contain a summary of the ammunition found at the scene of the shooting and the FBI's firearms forensic analysis of the shell casings that were recovered. Footnotes 31 and 32 on pages 106 and 107 indicate that the information from these summaries came from an analysis report produced by the FBI.

We are submitting a Freedom of Information Act request for the following information:

1. The FBI's analysis report referenced in footnotes 31 and 32 of the LVMPD's final report at pages 106 and 107.
2. The FBI's firearms forensic analysis of the shell casings that were recovered at the scene of the October 1, 2017 shooting and referenced on page 106 of the LVMPD's report.
3. The FBI's report on the ammunition used at the October 1, 2017 shooting.
4. Any ballistic reports generated by the FBI in its investigation of the October 1, 2017 shooting, including any that pertain specifically to Carolyn Lee Parsons, one of the victims of the shooting.

To assist you in complying with our request, please see the accompanying attachment. In addition to reiterating the above, the attached PDF also contains pages 9, 17, 74, 106, and 107 from the LVMPD's report. Pages 9 and 74 indicate that the FBI handled the collection and analysis of all evidence from the shooting. Page 17 identifies Carolyn Lee Parsons as one of the victims of the shooting. Pages 106 and 107 summarize the ammunition and firearms forensic analysis performed by the FBI.

**

Please be advised that efoia@subscriptions.fbi.gov is a no-reply email address. Questions regarding your FOIA request may be directed to foipaquestions@fbi.gov. If you have received a FOIPA request number, please include this in all correspondence concerning your request. Please note eFOIPA requests are processed in the order that they are received. If you have not received a FOIPA request number, your request is in the process of being opened at which time it will be assigned a FOIPA request number and correspondence will be forthcoming.

**

Upon receipt of your FOIPA request number, you may check the status of your FOIPA request on the FBI's electronic FOIA Library (The Vault) on the FBI's public website, <http://vault.fbi.gov> by clicking on the "Check Status of Your FOI/PA Request tool" link. Status updates are performed on a weekly basis. If you receive a comment that your FOIPA request number was not located in the database, please check back at a later date.

Re: FOIA Request for FBI Records

On August 3, 2018, the Las Vegas Metropolitan Police Department ("LVMPD") released its Final Criminal Investigative Report relating to the October 1, 2017 mass shooting in Las Vegas, Nevada. The report states at page 9 that "FBI ERT handled the collection of all evidence related to the Mandalay Bay and the Las Vegas Village venue," and the report further states at page 74 that "FBI personnel took the lead in evidence documentation and collection." Pages 106 and 107 of the LVMPD's report contain a summary of the ammunition found at the scene of the shooting and the FBI's firearms forensic analysis of the shell casings that were recovered. Footnotes 31 and 32 on pages 106 and 107 indicate that the information from these summaries came from an analysis report produced by the FBI.

We are submitting a Freedom of Information Act request for the following information:

1. The FBI's analysis report referenced in footnotes 31 and 32 of the LVMPD's final report at pages 106 and 107.
2. The FBI's firearms forensic analysis of the shell casings that were recovered at the scene of the October 1, 2017 shooting and referenced on page 106 of the LVMPD's report.
3. The FBI's report on the ammunition used at the October 1, 2017 shooting.
4. Any ballistic reports generated by the FBI in its investigation of the October 1, 2017 shooting, including any that pertain specifically to Carolyn Lee Parsons, one of the victims of the shooting.

To assist you in complying with our request, we have attached pages 9, 17, 74, 106, and 107 from the LVMPD's report. Pages 9 and 74 indicate that the FBI handled the collection and analysis of all evidence from the shooting. Page 17 identifies Carolyn Lee Parsons as one of the victims of the shooting. Pages 106 and 107 summarize the ammunition and firearms forensic analysis performed by the FBI.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
Criminal Investigative Report of the 1 October Mass Casualty Shooting
CONTINUATION

Event: 171001-3519

It was further decided the LVMPD's Force Investigation Team (FIT) would take responsibility for the Mandalay Bay crime scene to include the collection of evidence, documentation of the scene, and the collection of Paddock's body. This was all completed with the assistance from the Federal Bureau of Investigation's (FBI) Evidence Recovery Teams (ERT). FBI ERT handled the collection of all evidence related to the Mandalay Bay and the Las Vegas Village venue.

FIT was given primary investigative responsibility over the investigation. The mission of FIT is to provide thorough, accurate, and unbiased criminal investigations related to an LVMPD member's use of deadly force and other qualifying events resulting in death or substantial bodily harm. LVMPD policy states that FIT is responsible for the criminal investigation of deadly force and other high-risk critical incidents resulting in death or serious bodily injury. FIT is the primary investigative unit for any incident wherein the department member, during the course of his/her official duties, is the victim of a violent crime and sustains substantial injury.³

During the initial response to both scenes, FIT learned two LVMPD uniformed officers, Brady Cook and Casey Clarkson, were struck by gunfire. Preliminary information was received that Officer Charleston Hartfield was unaccounted for and presumed to have been struck by gunfire as well. Officer Hartfield was attending the festival in an off-duty capacity and assisted concertgoers in escaping the gunfire before he was fatally wounded. These factors are what initiated a FIT response.

In the days, weeks, and months following the 1 October shooting, LVMPD worked, alongside the FBI as well as numerous other local, state and federal agencies, to determine why the shooting occurred. Briefings looked to answer the following two questions:

- 1) Was there anyone, other than Paddock who took part in or assisted in the commission of these crimes?
- 2) What was Paddock's motive?

This report was derived from the LVMPD's preliminary investigative report that was released on January 18, 2018. The findings from that preliminary report remain accurate and in accordance with this final report. This report was authored to provide the reader with more information about who, what, when, and where. Regretfully, this report will not be able to address the why.

FIT believed it was important to expand upon the suspectology of Paddock. Interviews from family members are summarized in this report to include the Marilou Danley interviews. Early in the investigation, Danley was a person of interest for the LVMPD and FBI to locate and interview.

FIT expanded the sequence of events in this report to provide the reader with a greater knowledge of Paddock's actions leading up to the day of the shooting. There is a strong belief among investigators that the events leading up to 1 October began with Paddock's actions and behavior surrounding his stay at The Ogden Condominiums (The Ogden) located in downtown Las Vegas. Whether he used the Life Is Beautiful music festival as a rehearsal or not, we will

Event: 171001-3519

The ATF and FBI filed their respective legal processes in federal court. As a result, information gathered from those processes were kept with the respective federal agencies who authored the legal process. Summaries of the information generated are included in this report.

FBI

The FBI had 95 TDY personnel in Las Vegas within 24 hours. Within 48 hours 150 TDY personnel were assigned. This ultimately grew to 351 TDY personnel. FBI personnel took the lead in evidence documentation and collection and provided investigative support. A command post was established at the FBI's Las Vegas field office.

All tips or items that needed to be investigated or followed up on were coordinated by the FBI and the LVMPD. These leads were tracked using the Operational Response and Investigative Online Network (ORION) through the FBI.

All video surveillance collected by investigators from various sources was housed and analyzed by the FBI.

ATF

The ATF assisted in gathering information related to the firearms owned by Paddock. They also provided investigative support by following up on leads provided to law enforcement and conducted interviews.

Nevada Gaming Control Board

The Nevada Gaming Control Board assisted in gathering information pertaining to Paddock's and Danley's gambling history.

Henderson Police Department

The Henderson Police Department assisted in identifying victims and witnesses who were transported to various hospitals.

Las Vegas Metropolitan Police Department

Several bureaus/sections within the LVMPD assisted FIT in the investigation into 1 October.

Homicide Section

Detectives with the Homicide Section responded to, and were responsible for, the documentation of the Las Vegas Village to include the scene and deceased victims. Detectives completed interviews of LVMPD employees who responded to the Las Vegas Village or the Mandalay Bay during the attack.

Bullets and bullet fragments.

Ammunition

Several types of ammunition were located within rooms 32-135 and 32-134 loaded into rifle magazines for AR-15 and AR-10 style rifles. The AR-15 .223/5.56 rifle magazines were loaded with hollow point and polymer tipped hollow point ammunition. The AR-10 .308/7.62 rifle magazines and the bolt action rifle were loaded with Tracer, Frangible Incendiary Armor Piercing and Armor Piercing Incendiary ammunition.³¹

Firearms Forensic Analysis

Recovered in rooms 32-135 and 32-134 were 1057 shell casings. Forensic analysis was completed on all of the shell casings that were recovered. Of the rifles recovered from inside rooms 32-135 and 32-134, 14 were found to have been fired. The following table indicates which guns were fired and how many times:

Make	Serial Number	Number of Rounds Fired
Daniel Defense	DDM4078072	100
POF	PE1600179	95
FNH	FNB024293	153

³¹ Information on the ammunition was summarized from the analysis report produced by the FBI.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
Criminal Investigative Report of the 1 October Mass Casualty Shooting
 CONTINUATION

Event: 171001-3519

Daniel Defense	DDM4123629	95
Noveske Rifleworks LLC	B15993	33
Colt	LE564124	96
Christiansen Arms	CA04625	21
LMT	LMT81745	100
Colt	LE451984	100
POF	03E-1603178	100
FNH	FNCR000383	144
LWRC	5P03902	12
Ruger	56213026	6
LMT	LMS18300	2

Forensic analysis was also completed on the Smith and Wesson revolver recovered in Room 32-135. Scientists were able to determine the round recovered from Paddock's head was fired from the revolver recovered in Room 32-135. It was determined the spent shell casing recovered in the cylinder of the revolver was fired from the revolver.³²

Lock Interrogations

The key cards for hotel rooms in Mandalay Bay are programmed by computer when checking into the hotel. Each card is automated to open the room door associated to that guest. As a result, each time a card is used to gain access to a guest room, the information is electronically stored. Lock interrogations were requested on both rooms 32-135 and 32-134.

On October 1, the door and lock to Room 32-135 was manipulated several times. The door was opened and closed and the dead bolt was thrown and released several times. At 2320 hours, the door to Room 32-135 showed "opened from the inside." This is the time the door was breached by officers. The only key card used to open the door from the outside was issued to Paddock.

On October 1, the door and lock to Room 32-134 was manipulated several times. The door was opened and closed, and the dead bolt was thrown and released several times. The only key card used to open the door from the outside was issued to Paddock.

Prior to October 1, key cards issued to other guests were used in an attempt to make access into rooms 32-135 and 32-134 but access was denied.³³

DNA

Several items of evidentiary value were collected for DNA analysis from rooms 32-135 and 32-134 of the Mandalay Bay. These items included the 24 firearms recovered in the rooms, along with personal items, and were compared to known samples for Paddock and Danley.

³² Information was summarized from the analysis report completed by the FBI.

³³ Lock interrogation reports for rooms 32-135 and 32-134. Lock interrogations are attached as Appendix A and Appendix B, respectively.
